Adventures with Bailey!

Bindi was adopted from LCAS in August. She was renamed Bailey and has just been the best companion I could have hoped for. From the moment we brought her home she was great in the house and hasn't destroyed anything (except for her toys which she loves to take apart). She knew a lot of commands upon adoption, but it was important to train her to be comfortable around other dogs, so we went to obedience classes. Together we have learned at least five new commands and tricks! She picks things up very fast and is the

smartest dog I have ever met.

Bailey is VERY food motivated, which makes training a breeze but means we must keep anything that smells like food far from her counter surfing ways. Taking food off the counter is the worst thing she does but has forced my boyfriend and I to keep a clean house, and it's also very endearing.

She is the best of both worlds--she's very energetic and loves to go on walks

and hikes, but also loves to cuddle on the couch when we're having a lazy day.

I can't believe how lucky I am to have found Bailey. She's truly a wonderful dog and has a great big heart. I really don't have the words to thank you all for bringing us together. I can't wait for more adventures with her.

Eternally grateful,
Ashlyn
